HEATING PIPING & AIR CONDITIONING

FOR CONSULTING ENGINEERS, MECHANICAL (HPAC) CONTRACTORS, ENGINEERS WITH PLANTS AND BUILDINGS

1964 VOLUME INDEX

January-December Vol. 36, Nos. 1-12

This index includes the feature editorial material, Open for Discussion, Question of the Month, and You'll Want To Know departments appearing regularly in each issue. The You'll Want To Know pages include items of news, comments on current events, etc. A complete directory section covering heating, piping, and air conditioning equipment for industry and large buildings was published in the January issue.

The articles are indexed by type of construction, system, or function. For example, the article "Air Conditioned School Is Hawaii's First" is indexed under the key words "Air Conditioned," and "School."

The month and page number that appear in **italics** in the index refer to comments on the indexed article. These comments appeared in the "Open for Discussion" pages.
